EXPERIENCE

Vendelux

Mar 2026 – Present

Product Designer — B2B Sales Intelligence Platform

— Replaced a manual CRM export-and-filter process (~30 min) with instant, self-serve filtering (under 1 min); the 38 segments created in week one were queried 50+ times each on average, nearly 2,000 queries total.

— Designed and launched a web-based event platform from 0 to 1, growing engagement 1.8x (0.44 to 0.79 actions per query).

— Transformed one-off components into a reusable schema across 4 product surfaces, and introduced a documentation workflow the team adopted for testing new components.

— Ran usability testing with 4 Forward Deployed Engineers and redesigned their internal campaign tool, incorporating direct feedback and resolving requirements same-day before launch.

Columbia Robotics and Rehabilitation Lab

May 2025 – Mar 2026

Web Designer & Graduate Researcher

— Designed the interaction model and vest for C.A.S.T., a wearable for SCI patients, featuring 3 gesture-based control modes.

— Built and shipped the lab's site end to end, serving 4 distinct audiences from one content system.

Stealth Startup

Nov 2025 – Jan 2026

User Experience Designer — AI-Native Scheduling App for Students

— Shipped 200+ screens from concept to launch as the lead designer on a 4-person team.

— Took the MVP from concept to shipped in 2 weeks, partnering with the CTO and engineers throughout.

PROJECTS

PASSIT ON

violethyun.com/work/passiton

Advised by Michael Krisch

— Built an NFC-based garment tracking platform addressing textile waste flowing into Ghana's Kantamanto Market.

— Presented to 70+ people and ran 3 rounds of usability testing with 30 users; 25 specifically cited the storytelling approach as the platform's strongest element.

Greener Walking Routes

violethyun.com/work/greener-routes

Advised by Meli Harvey, Luc Wilson

— Prototyped a walking-navigation tool favoring green exposure over speed, capping detours at 15%.

— Gathered feedback from 20 real users, all of whom responded positively to the concept.

LEADERSHIP

Design and Engineering Club, NYU

May 2023 – Dec 2024

Founder & President

— Founded a cross-disciplinary community of 50+ members bridging technology and art from zero, setting strategy and mission, and built visibility through campus club festivals and workshops.

Women in Computing, NYU

May 2023 – Dec 2024

Event Coordinator

— Partnered with NYU alumni and industry professionals to run portfolio reviews and workshops that helped place 30+ women in roles.

EDUCATION

Aug 2026

Columbia University, GSAPP

M.S. Computational Design Practices, HCI

Dec 2024

NYU, Tisch School of the Arts

B.F.A. Interactive Media Arts, CS Minor

COURSEWORK

- Mapping Systems
- Design in Methods
- Spatial UX
- Computational Modeling
- Prototyping in Urban Tech

SKILLS

Agentic AI

Claude Code, Claude MCP, Cursor, Figma Make, V0

Design

Figma, Adobe CS, Framer, Squarespace

Research

User Interviews, Usability Testing, A/B Testing
